

§ 741.3

12 CFR Ch. VII (1–1–05 Edition)

(c) The regional director will approve the waiver request if the proposed borrowing limit will not adversely affect the safety and soundness of the federally insured state-chartered credit union.

[60 FR 58504, Nov. 28, 1995, as amended at 69 FR 8547, Feb. 25, 2004]

§ 741.3 Criteria.

In determining the insurability of a credit union which makes application for insurance and in continuing the insurability of its accounts pursuant to Title II of the Act, the following criteria shall be applied:

(a) *Reserves*—(1) *General rule.* State-chartered credit unions are subject to section 216 of the Act, 12 U.S.C. 1790d, and to part 702 and subpart L of part 747 of this chapter.

(2) *Special reserve for nonconforming investments.* State-chartered credit unions (except state-chartered corporate credit unions) are required to establish an additional special reserve for investments if those credit unions are permitted by their respective state laws to make investments beyond those authorized in the Act or the NCUA Rules and Regulations. For any investment other than loans to members and obligations or securities expressly authorized in Title I of the Act and part 703 of this chapter, as amended, state-chartered credit unions (except state-chartered corporate credit unions) are required to establish and maintain at the end of each accounting period and prior to payment of any dividend, an Appropriation for Non-conforming Investments in an amount at least equal to the net excess of book value over current market value of the investments. If the market value cannot be determined, an amount equal to the full book value will be established. When at the end of any dividend period, the amount in the Appropriation for Non-conforming Investments exceeds the difference between book value and market value, the board of directors may authorize the transfer of the excess to Undivided Earnings.

(b) *Financial condition and policies.* The following factors are to be considered in determining whether the credit union's financial condition and policies are both safe and sound:

(1) The existence of unfavorable trends which may include excessive losses on loans (i.e., losses which exceed the regular reserve or its equivalent [in the case of state-chartered credit unions] plus other irrevocable reserves established as a contingency against losses on loans), the presence of special reserve accounts used specifically for charging off loan balances of deceased borrowers, and an expense ratio so high that the required transfers to reserves create a net operating loss for the period or that the net gain after these transfers is not sufficient to permit the payment of a nominal dividend;

(2) The existence of written lending policies, including adequate documentation of secured loans and the protection of security interests by recording, bond, insurance, or other adequate means, adequate determination of the financial capacity of borrowers and co-makers for repayment of the loan, and adequate determination of value of security on loans to ascertain that said security is adequate to repay the loan in the event of default;

(3) Investment policies which are within the provisions of applicable law and regulations, i.e., the Act and part 703 of this chapter for federal credit unions and the laws of the state in which the credit union operates for state-chartered credit unions, except state-chartered corporate credit unions. State-chartered corporate credit unions are permitted to make only those investments that are in conformance with part 704 of this chapter and applicable state laws and regulations;

(4) The presence of any account or security, the form of which has not been approved by the Board, except for accounts authorized by state law for state-chartered credit unions.

(c) *Fitness of management.* The officers, directors, and committee members of the credit union must have conducted its operations in accordance with provisions of applicable law, regulations, its charter and bylaws. No person shall serve as a director, officer, committee member, or employee of an

National Credit Union Administration

§ 741.4

insured credit union who has been convicted of any criminal offense involving dishonesty or breach of trust, except with the written consent of the Board.

(d) *Insurance of member accounts would not otherwise involve undue risk to the NCUSIF.* The credit union must maintain adequate fidelity bond coverage as specified in § 741.201. Any circumstances which may be unique to the particular credit union concerned shall also be considered in arriving at the determination of whether or not an undue risk to the NCUSIF is or may be present. For purposes of this section, the term “undue risk to the NCUSIF” is defined as a condition which creates a probability of loss in excess of that normally found in a credit union and which indicates a reasonably foreseeable probability of the credit union becoming insolvent because of such condition, with a resultant claim against the NCUSIF.

(e) *Powers and purposes.* The credit union must not perform services other than those which are consistent with the promotion of thrift and the creation of a source of credit for its members, except as otherwise permitted by law or regulation.

(f) *Letter of disapproval.* A credit union whose application for share insurance is disapproved shall receive a letter indicating the reasons for such disapproval, a citation of the authority for such disapproval, and suggested methods by which the applying credit

union may correct its deficiencies and thereby qualify for share insurance.

(g) Nothing in this section shall preclude the NCUA Board from imposing additional terms or conditions pursuant to the insurance agreement.

[60 FR 58504, Nov. 28, 1995, as amended at 64 FR 41040, July 29, 1999; 65 FR 8593, Feb. 18, 2000; 67 FR 71094, Nov. 29, 2002]

§ 741.4 Insurance premium and one percent deposit.

(a) *Scope.* This section implements the requirements of Section 202 of the Act (12 U.S.C. 1782) providing for capitalization of the NCUSIF through the maintenance of a deposit by each insured credit union in an amount equaling one percent of its insured shares and payment of an insurance premium.

(b) *Definitions.* For purposes of this section:

(1) *Available assets ratio* means the ratio of:

(i) The amount determined by subtracting all liabilities of the NCUSIF, including contingent liabilities for which no provision for losses has been made, from the sum of cash and the market value of unencumbered investments authorized under 12 U.S.C. 1783(c), to:

(ii) The aggregate amount of the insured shares in all insured credit unions.

(iii) Shown as an abbreviated mathematical formula, the available assets ratio is:

$$\frac{(\text{cash} + \text{market value of unencumbered investments}) - (\text{liabilities} + \text{contingent liabilities for which no provision for losses has been made})}{\text{aggregate amount of all insured shares from final reporting period of calendar year}}$$

(2) *Equity ratio* means the ratio of:

(i) The amount of NCUSIF's capitalization, meaning insured credit unions' one percent capitalization deposits plus the retained earnings balance of the NCUSIF (less contingent liabilities

for which no provision for losses has been made) to:

(ii) The aggregate amount of the insured shares in all insured credit unions.

(iii) Shown as an abbreviated mathematical formula, the equity ratio is:
